

# Boston TVee Model Two

*Make it your own with optional interchangeable grilles, a Boston exclusive.*

*TV definitely not included, but the wireless bass speaker is.*

## TVee™ Model Two

**Hear everything you watch...better!**  
*Better sports, news, movies, games. Better TVee!*

TVee Model Two includes everything your new flat-panel TV should have come with, but didn't. A soundbar and wireless bass speaker work together to deliver a dramatically better TV experience. One cable connects it all, and you control it with the remote you're already using. Sports are sportier. News, newsier. Movies sound the way they were meant to be heard. And games reach new levels of realism.

# Boston TVee Model Two

## What it means to be from Boston.

Many manufacturers design speaker systems around third-party, off-the-shelf parts. Boston Acoustics engineers every component of every system to meet the highest performance standards (our own). Of course, performance is only one measure of value. So we're careful to build all our products with strict attention to everything from the choice of materials to the details of fit and finish. It's how we've been exceeding the expectations of serious listeners for nearly thirty years. With the introduction of TVee, Boston delivers a better entertainment experience for TV viewers and video gamers everywhere, with an innovative, stylish new product you won't find anywhere else.
